

ADA Door Pulls & Phone Fetches

These leather fetch appliances are designed to make retrieving phones, opening doors, or anything you can think of, easier for your dog to achieve. The bites are made out of heavy weight leather and have a added sewn on leather grip edge to help the dog grip the appliance securely. If your training a dog to fetch, then these appliances can provide many years of service.

PLEASE NOTE:

Every thing made by Circle E Saddle & Leather is custom made, so I am always open to your ideas and needs. Working with Service Dogs is a labor of love for me. I enjoy working with the many wonderful Service Dog groups and trainers and users. Most of my designs were archived from learning from the people who work every day with Service Dogs. I look forward to learning and improving my harnesses and equipment by listening to your ideas and needs. Thank you all for your help. I'm always available to answer your questions. Feel free to call me anytime @ 214-543-2893
