

Nylon Pouches

Nylon Pouches are now available in two colors. Bright Red as shown and Forest Green. The words “Service Dog” can be embroidered on the pouch. The pouches are made from a water-proof light weight nylon, come with two outside D-rings and a zipper closure.

The pouches have been designed to fit the harness saddle as shown. It can be fitted to a single D-ring or a triple D-ring saddle as shown below. Two heavy duty snaps hold the pouch in place and allow the pouch to be removed easily. The pouch is designed to hold light weight personal items that the user may need such as a wallet, cell phone, the dog’s ID, keys, medication, etc.. The design, size and construction of the pouch came from feed back from several service dog groups. To those groups who gave me the information, I thank you for your help.

The pouches are all made here in Texas by a neighbor who is a seamstress.

Note: pouches can be reworked to fit other companies harnesses.

Cost---- Plain pouch \$32.00

Embroidered pouch – \$40.00

Note: Older harnesses can be retrofitted for this pouch if the harness is returned to me.
